

# CAPABILITY STATEMENT

## Environmental Services

**Eastern Shawnee Professional Services (ESPS)** delivers comprehensive environmental services tailored to meet the unique needs of federal, state, and local agencies as well as commercial clients. Specializing in thorough investigations, remediation efforts, hazardous materials surveys, and waste management, our team ensures full regulatory compliance while actively promoting eco-friendly and sustainable practices. Our goal is to support clients in navigating complex environmental requirements, minimizing ecological impact, and advancing sustainability initiatives that foster longterm environmental stewardship. With a focus on innovative solutions and industry-leading expertise, ESPS is dedicated to protecting our natural environment and creating a safer, greener future.
